

Addendum

Withdrawn abstracts

Invited talks:

- O2-1** 11:00 – 11:30 am: **Optically induced magnetization in 2D superlattice perovskite film established by circularly polarized orbital polarization ordering effects (INVITED)**
Bin HU (University of Tennessee)

Contributed talks:

- O2-3** 11:50 am – 12:10 pm: **Long-range order, re-entrant spin glass and spin liquid correlations in Anion disordered Gd₂Hf₂O₇**
Jianhui XU (RWTH Aachen University)
- O3-4** 3:10 – 3:30 pm: **Update on the neutron polarisation capabilities at the Australian Centre for Neutron Scattering, ANSTO**
Andrew MANNING (ANSTO)
- O11-3** 2:50 – 3:10 pm: **New options on the polarized neutron single crystal diffractometer POLI at MLZ**
Jianhui XU (RWTH Aachen University)

Posters:

- P6** **Upgrade and commissioning of guide test station with polarization analysis at HANARO**
Ki-Yeon KIM (KAERI)
- P13** **Compensation optics for phase shifts of pumping light by mirror reflections in spin-exchange optical pumping**
Takashi INO (KEK)

Added abstracts

- P6** **New options on the polarized neutron single crystal diffractometer POLI at MLZ**
Jianhui XU (RWTH Aachen University)
- P13** **Luminescence and Scintillating properties of Ce³⁺, Gd³⁺ and Eu^{2/3+} doped ultrasmall LaF₃ nanoparticles**
Navadeep SHRIVASTAVA (Fayetteville state University)
